DAISY

newsletter

DAISY Newsletter!

DAISY Newsletters will now be sent out every other month. If you have any suggestions on additional DAISY-related items we could include here, please contact me at saparicio@parentchildplus.org.

Live Training Series

The next DAISY Live Training Session will be held on Tuesday, March 7th. This session will review how to run reports to meet your needs and how to submit data requests. [Please register here](#).

Feedback opportunity!

Each year, we compile a list of DAISY “to-dos” that will improve the user experience and then start working with our software developers on needed system updates. We would like to include your feedback in deciding which DAISY “to-dos” are prioritized. This list of “to-dos” was determined by user feedback through request tickets, data quality check-ins, and DAISY working group members. The

survey will take ~3 minutes to completed. [Complete the survey here.](#)

Reporting DAISY Errors

If you need assistance with data entry or reporting on DAISY, please submit a request ticket by clicking the Support button on the bottom right corner of the DAISY home page. You can also submit request tickets by emailing support@parentchildplus.zendesk.com.

Join Us on Slack

ParentChild+ has a #daisy channel dedicated to all things DAISY. Slack is a great communication tool to ask fellow program staff DAISY-related questions. **It is also the fastest way to learn about a glitch, a glitch fix, or a new feature or training, I post them in real time as soon as I know.** [Click here](#) to join our channel to stay up to date on DAISY system updates.
